### **The Australian Institute of Building (AIB) Announces National Professional Excellence in Building Awards and The 2016 AIB Building Professional of the Year**

Saturday, 3 September 2016

The Australian Institute of Building recently announced the *2016 AIB National Professional Excellence in Building Awards* in Melbourne, Victoria.

The presentation of the awards was made at a gala awards dinner at the Park Hyatt Melbourne, which was attended by the building and construction industry's leading figures.

"These awards are the ultimate personal achievement for a professional builder. They recognise the contribution and leadership shown by individuals to the successful completion of a construction project, reinforcing the fact that the success of any building firm can be attributed to those responsible for construction projects", said Norman Faifer FAIB, National President of the Australian Institute of Building.

The judging criteria for the *AIB National Professional Excellence in Building Awards* weights the contribution of individuals and the challenges that they face. A decision to present a Professional Excellence Award is based upon challenges associated with the complexity of the project in its construction phase as opposed to the characteristics of the completed structure.

The Australian Institute of Building congratulates the *2016 AIB OneSteel Reinforcing National Building Professional of the Year*, **David Purcell MAIB** from Kane Constructions for his work on the *Geelong Library & Heritage Centre*.

"On behalf of the AIB and the industry I congratulate all the winners. The quality of the winners is testament to the high level of professionalism that exists in the construction industry", Mr Faifer said.

#### **An Introduction – Australian Institute of Building**

Founded in 1951 and granted a Royal Charter in 1969, the Australian Institute of Building (AIB) concerns itself with increasing the professionalism amongst builders. AIB members hold degree qualifications in building or construction management and work as project managers or in senior levels within construction companies. With a focus on supporting the next generation of building professionals, AIB cooperates with universities to ensure the relevance of undergraduate programs in building disciplines. For further information on AIB visit the website at [aib.org.au](http://aib.org.au)
